

**Wyoming's Sensitive Species or Species of Concern**  
**USFS Rocky Mountain Region 2, BLM Wyoming,**  
**and/or Wyoming Game & Fish various ranking and tiers**

This region would benefit from additional bird-sighting documentation. Of special interest are species of concern, and sensitive species documentation. eBird is the best tool to document sighting. eBird data increasingly contributes to local and global bird conservation efforts, including the Forest Service. <https://ebird.org/about>
